

# Active learning

New  
School  
Montessori

**NEW SCHOOL MONTESSORI'S** classroom communities are thoughtfully planned, joyful places where children use ingeniously designed materials for hands-on experiential learning and self-discovery. Learning is an adventure. Lessons are inviting. Work is purposeful. Curiosity is encouraged.

Because most experiences are self-directed, children gain an immense sense of satisfaction and confidence from meeting new challenges—a complex math problem, a long book, a research project.

The result: Children here love to learn, and their passion for knowledge continues beyond NSM.

► **How they are adapting:**

Small group classes of 10  
Daily safety protocols  
Contained classroom pods  
Immersive virtual learning

Fully-loaded chrome books  
for mobile learning  
Before and after school  
care 7:30AM-6PM

*Careful observation, testing preconceptions, imagining possibilities...these are the hallmarks of the young innovator who is constantly looking at the world with new eyes."*

**Robyn Stearne, Headmaster**
